ServiceMASTER Restore®

Deep cleaning, Sanitisation and Infection Control

While you can't eradicate the threat of a virus from your premises, you can take measures to cut down the risk of spreading any illness and reducing sickness.

Flu, Colds, other viruses and bacterial infections affect all types of businesses, education & healthcare facilities. While you can't eradicate the threat of a virus from your premises, you can take measures to cut down the risk of spreading any illness and reducing sickness. The most important factor is putting the correct disinfection and hygiene regime in place.

ServiceMaster Restore are already helping businesses put a robust cleaning & sanitisation programme in place to help reduce spread of infection, contact us today to see how we can help you.

The most important factor is putting the correct disinfection and hygiene regime in place and that's where we can help.
